

Free Mammograms ... Because Your Health is Priceless!

Are you a woman without health insurance?

Does your co-pay make it difficult to access health care?

Are you due for a mammogram?

Allegheny General Hospital, in partnership with
the National Breast Cancer Foundation,
is providing free mammograms for women with limited resources.

Regular mammograms are important
in detecting breast cancer at an earlier stage — when it is most treatable.

To learn if you qualify for a free mammogram, call the
Allegheny General Hospital Breast Care Center
at 412-359-6543.
